No. 02-4510

INFORMATION LETTER

Following the decision of the State Corporation “Rosatom” governors, work has been undertaken to consolidate the isotope business and set up a united operator SJC “IZOTOP”

SJC “IZOTOP” is the sole authorised organisation of State Corporation “Rosatom” in the sector of radioactive and stable isotopes supply as well as deliveries of radioactive sources to the internal and external markets.

State Corporation “Rosatom”’s manufacturers of the above products can engage in contracts to supply such products exclusively through OAO Isotope. Any initiatives of the manufacturers in this field must be coordinated with SJC “IZOTOP” according to the existing procedure.

Principal representative of SJC “IZOTOP” in the international market is REVISS Services Limited, in which 70% is held by the companies of State Corporation “Rosatom”.

Joint Venture Company REVISS Services Limited is authorised to hold negotiations and consultations on behalf of SJC “IZOTOP” in respect of any issues related to the supplies of radioactive and stable isotopes as well as radioactive sources to the external market.

REVISS Services Limited is the principal distributor of the following radioactive sources to the external market: Co57, Co60, Ni63, Se75, Ba133, Cs137, Ir192, Am241, AmBe, Cf252 as well as He3, H3, C14, Fe55, Co57, Kr85, Mo99, Pd103, I125, I131 and other products.
